1. Budget System Basics

The Budgeting System – An Overview

Functionality Overview

The State's budgeting system is comprised of two applications - Vermont Vantage and Vermont infoAdvantage. Vermont Vantage is the point of direct data entry by end users. Vermont infoAdvantage produces reports for the Legislature using the data from Vermont Vantage. The budgeting system has several key functions, among them:

- Standardizing the process of entering their annual budgets: Ensuring consistency in the budget development process and traceability of trends over time.
- Importing Department of Human Resources position and employee data, which is projected regularly during the budget development period: Providing departments w/up-to-date salary costs that are adjusted whenever department-driven (position/employee/pay changes), or benefit table (health, etc.), changes occur.
- Importing Actuals from the previous fiscal year: Allowing departments to better understand the actual need for individual budget items in the upcoming fiscal year.
- Providing queries and reports for budgetary information (including position) at various selectable levels for both funds (specific fund, fund type, all funds) and organizations (division, department, agency, all state): Giving users the ability to isolate specific information that is relevant to their business need.

Contact Information

The support resource for end users is the Vantage Admin Team, which is comprised of members from the Department of Finance and Management. They should serve as the primary contact for all Vantage/infoAdvantage related questions and can be reached at their shared inbox: FIN.Vantage@vermont.gov. Departments may also contact their budget analyst for non-technical Vantage assistance.

Setting Up Your Computer for Vantage and infoAdvantage

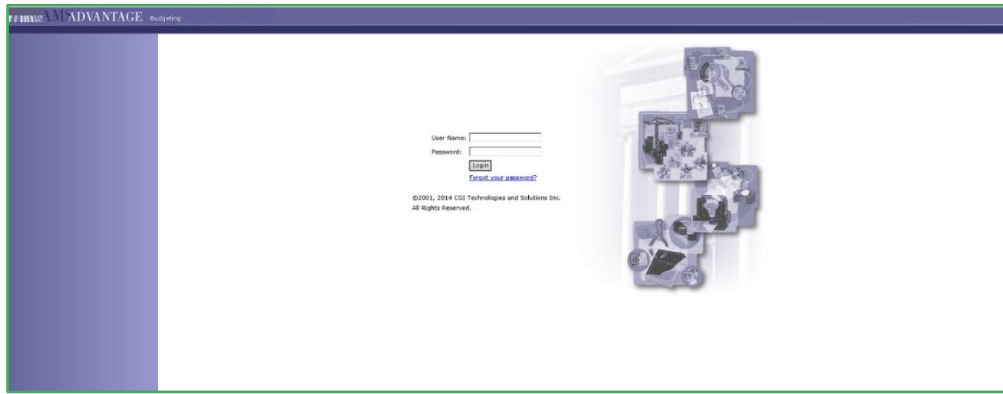

Vantage and infoAdvantage will operate proficiently on multiple browsers including Chrome, Edge, and Internet Explorer 11.

Vantage and infoAdvantage URLs

Click these links from the State of Vermont Network to access Vantage and infoAdvantage.

| | |
|--------------------------|---|
| Vantage Production | https://vantage.erp.vermont.gov/VTPROD/ |
| InfoAdvantage Production | https://vantage-bi.erp.vermont.gov/InfoViewApp/ |

The Vantage URL will take you to the Vantage log-in page as seen below:

The infoAdvantage URL will take you to the infoAdvantage log-in page as seen below:

If you need to access Vantage or infoAdvantage remotely, please ensure that you are connected to the State's VPN. Both Vantage and infoAdvantage live behind the State firewall and cannot be accessed outside of the server.

Logging into Vantage and infoAdvantage

New users to Vantage and infoAdvantage will only be able to access both systems after completing the Vantage New User Request Form found at <https://finance.vermont.gov/vantage-budget-system>.

Vantage

To log into Vantage, enter:

1. Vantage User Name:

- Is your first name followed by a period (.) then your last name.
- Characters are case sensitive.
- For people with nicknames, your username is the same as your SOV e-mail address.

2. Vantage Password:

- Use the password that you have set or been assigned by the Vantage Administrator Team.

3. Click the **Login** Button

infoAdvantage

To log into infoAdvantage, enter:

1. **System Name** – biprdapp01
2. **infoAdvantage User Name** – same as your Vantage username.
3. **infoAdvantage Password** – individually assigned by the Vantage Administrator Team and most likely *not* the same as your Vantage password.
4. **Authentication** – “Enterprise”
5. Click the **Login** Button

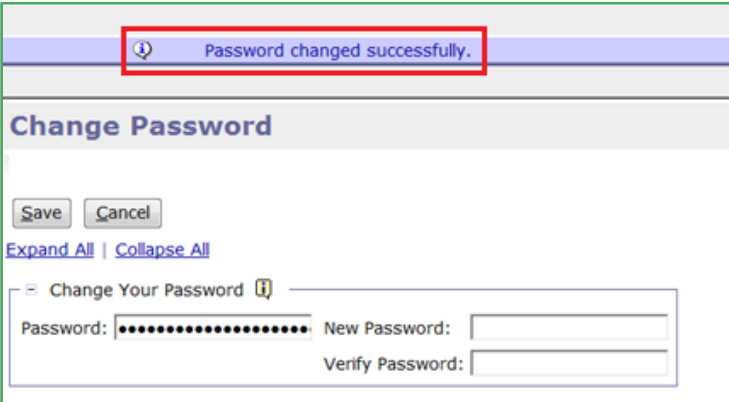

Password Criteria

After the logging into Vantage and/or infoAdvantage for the first time, your password may need to be changed. Your new password needs to comply with the following criteria:

- Be a minimum of eight (8) characters in length, must use at least three of the four character types, those being: lower case letters, upper case letters, numbers and special characters (Example: !, #, %).
- Passwords may only be reused every third password, at minimum. “Completely new” is defined as having at least fifty percent (50%) of the characters different from the previous password.

Changing your password in Vantage

1. Login to Vantage
2. Click the **Edit Password** link at the top right corner of the home page
3. Enter your current password in the **Password** Field
4. Enter your new password in the **New Password** field
5. Retype your new password in the **Verify Password** field
6. Click **Save**
7. If your password is successfully changed you will see the following message:

The screenshot shows a web interface for changing a password. At the top, a blue banner displays the message "Password changed successfully." with a small icon. Below this is the "Change Password" section. It contains a "Save" button and a "Cancel" button. Underneath are links for "Expand All" and "Collapse All". A section titled "Change Your Password" with a help icon contains three input fields: "Password:" (filled with dots), "New Password:", and "Verify Password:".

Changing your password in infoAdvantage

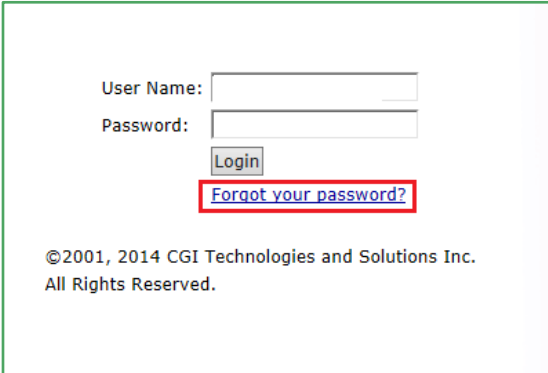

1. Login to infoAdvantage
2. Click the **Preferences** link at the top right corner of the home page
3. Click on **Change Password**
4. Enter your current password in the **Old Password** Field
5. Enter your new password in the **New Password** field
6. Retype your new password in the **Confirm New Password** field
7. Click **Ok**

Forgotten Password?

If you have forgotten your password or need a new password in infoAdvantage, please contact the Vantage Administrator Team at FIN.Vantage@vermont.gov.

If you have forgotten your password or need a new password in Vantage:

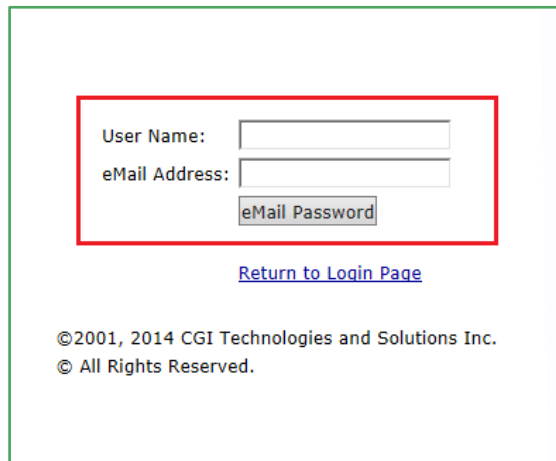

1. Navigate to the Vantage log in page
2. Click the link on the login screen **Forgot your password?**

The screenshot shows a login interface with the following elements:

- User Name:
- Password:
- Login button
- Forgot your password?** link (highlighted with a red box)
- Copyright notice: ©2001, 2014 CGI Technologies and Solutions Inc. All Rights Reserved.

3. The screen will change and prompt you for your User Name and E-mail Address.

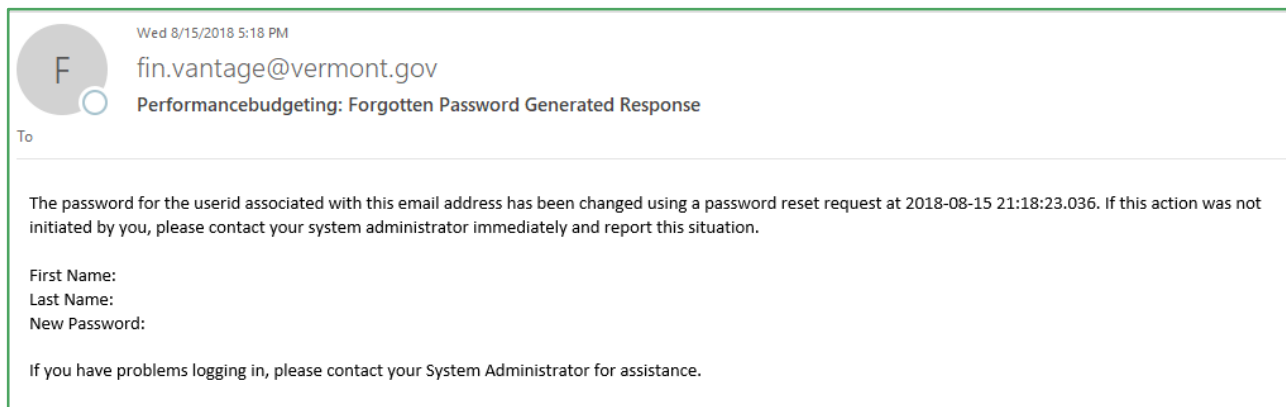

User Name:

eMail Address:

[Return to Login Page](#)

©2001, 2014 CGI Technologies and Solutions Inc.
© All Rights Reserved.

4. If you entered a valid e-mail address and user ID, an email will be generated with a new password. A sample email is below for reference. If you do not receive an email, please contact the Vantage Administrator Team at FIN.Vantage@vermont.gov.

5. Click the **Click here to Login** button
6. Enter your Username
7. Copy and Paste the new password into the **Password** field. If you have difficulty logging in after following these steps please contact the Vantage Administrator Team at FIN.Vantage@vermont.gov.

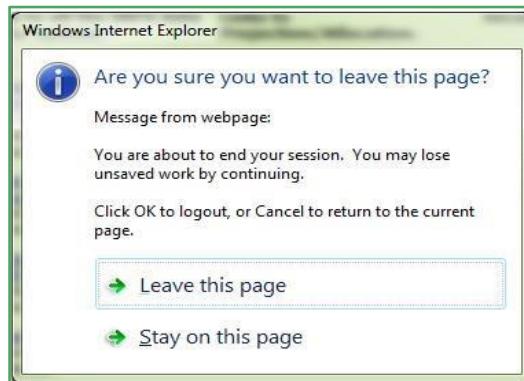

Navigation in Vantage

General Vantage System Navigation Conventions

Basic Navigation

Here are some very important Vantage navigation rules:

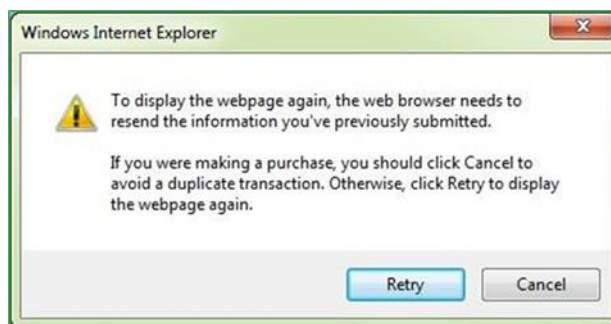

- You must use the mouse or the tab key to navigate within the application; pressing the **Enter** button on the keyboard does not work in most fields.
- As the application is separate from your browser, **never** use the **Back** or **Refresh** buttons on your web browser when attempting to navigate in the application. Use of these buttons may cause you to lose any unsaved work. Pressing the **Back** or **Refresh** button will cause the following error screen to be displayed:

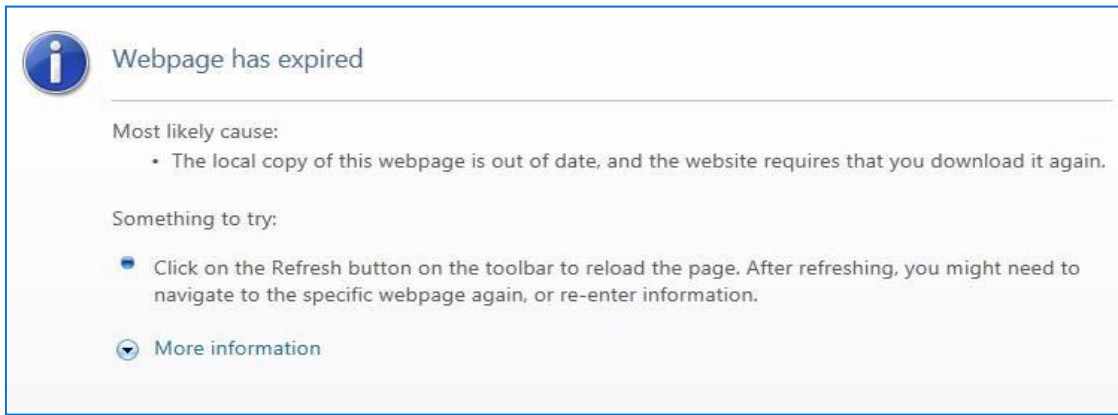

- If you select the **Stay on this page** button, you will receive the following error and be returned to the application.

- If you select the **Leave this page** button, you will receive the one of the following errors and you will need to log out and then back into Vantage.

Navigation Bar

The Navigation Bar is located in the upper-right hand corner of the application, contains links for the Home Page (“Home”), Help, Preferences, Edit Password, and Logout functions. Note that when in a budget request only the **Help** option is available via the Navigation Bar.

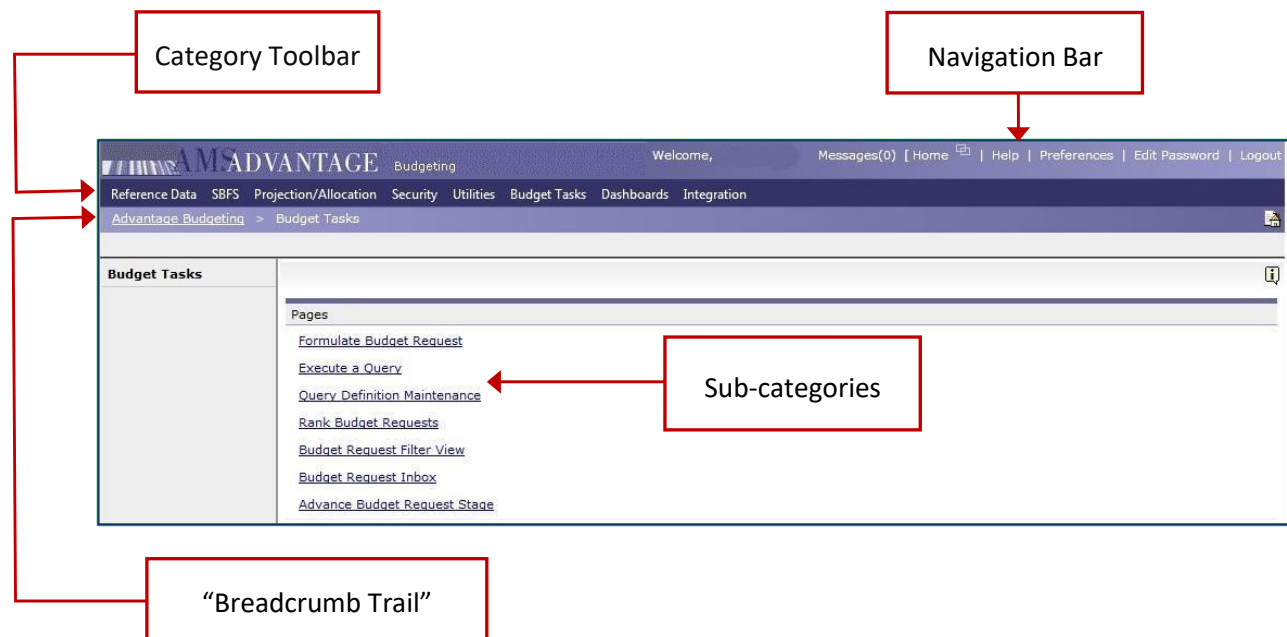

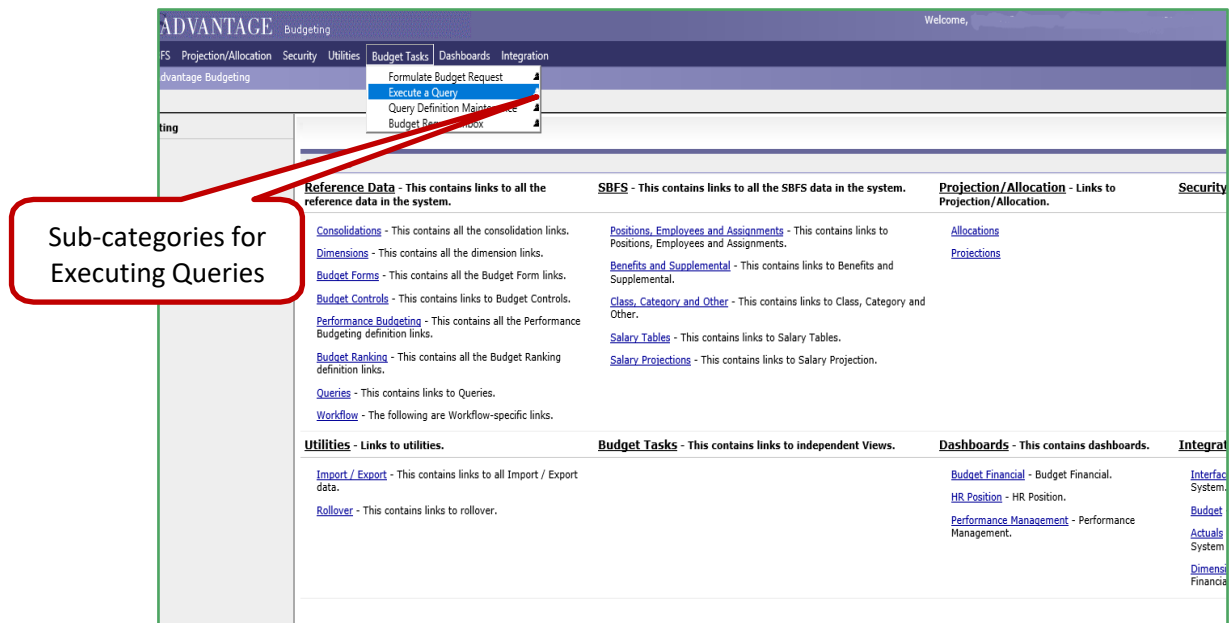

| | |
|---|---|
| Home | Returns the screen to the homepage |
|  | The interlocking squares next to the Home link will open a secondary window to allow the user to have two screens available to work in. |
| Help | Provides online help for using the application (this is generic help information and is not <i>Vermont Vantage</i> specific) |
| Preferences | Used to set user preferences when working in the application |
| Edit Password | Used to change user’s password (described on pg. 7) |
| Logout | Used to logout of the application |

Home Page and Category Toolbar Navigation

The Vantage home page will be the default page users will see when they log in. Additionally, it is one of the two different ways users can navigate the application. Regardless of which method an end user chooses, the options available will be the same and both will create a “breadcrumb trail” when you advance through categories and sub categories.

1. **Home Page** – The home page navigation is similar to the Category toolbar, but it can only be accessed when on the home page, and instead of hovering an end user must click the category/sub-category/form.
2. **Category toolbar** - located in the upper left-hand side of the screen below the banner, the upper

row of the toolbar contains Categories which, when hovered over, populate links to sub-categories, which in turn, when hovered over, populate forms.

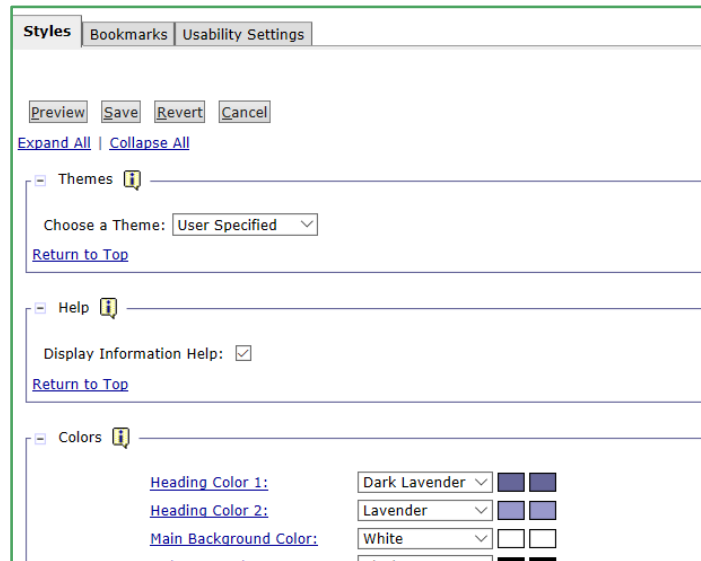

Preferences

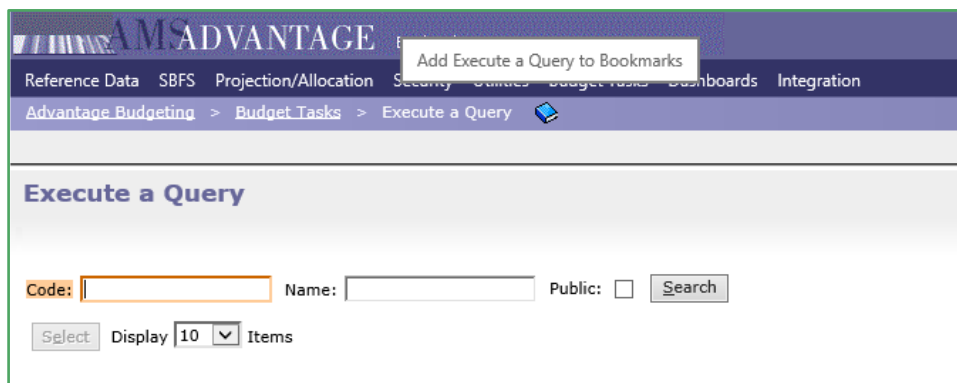

The **Preferences** feature allows you to customize the Vantage application and is accessed by clicking the preferences hyperlink in the Navigation bar.

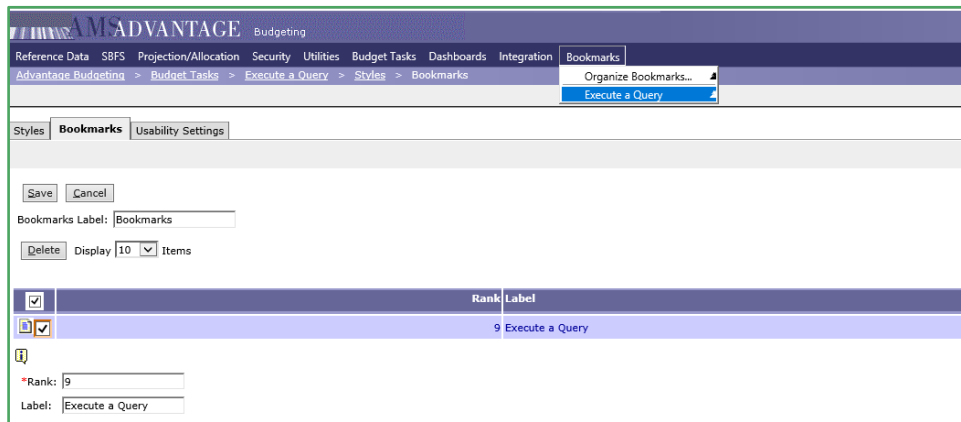

Styles - allows you to change the appearance of Vantage (background themes, fonts and desktop color schemes).

Bookmarks – allows you to create easy access shortcuts to application pages within the Vantage application. To create a bookmark, while on a page you'd like to bookmark, click the  icon.

This will create a new category on the Category Toolbar named “Bookmarks,” which, when hovered over, will display all of the application pages you’ve bookmarked. This is potentially useful if you work in the same limited number of forms as it will reduce the clicks to arrive at the desired form. Additionally, you can adjust the label and rank order of your bookmarks in the Preferences tab.

Items on the Usability Settings tab are pre-configured, and **changes are not recommended**.

Help

Provides online help for using the application which is dynamically populated depending on the form you are using. Please note that the help page information relates to the off the generic Vantage product and is not specific to Vermont's Vantage configuration).

Security

Department users will have security access to the Business Units and Appropriations they are responsible for. When you first sign-in, try to find the DeptIDs associated with your business unit (using the search steps below for assistance) and if you do not have access, please contact the Vantage Administrator Team at FIN.Vantage@vermont.gov.

Advanced Navigation and Use

Searching (Global Search)

Many forms and data fields will require searching to locate and the following picture depicts the most important searching concepts.

| Code | Name |
|----------------------|---|
| BAA_ADJ_QUERY | BAA Adjustment Query - Detail |
| BASE_BUDGET_PROCESS | Base Budget Process - Detail Level |
| BASEBUD_PROCESS_FUND | Base Budget Process - By Fund |
| BAA_ADJ_QUERY_FUND | BAA Adjustment Query - By Fund |
| BAA_ADJ_LEG_FUND | BAA Adjustment Query - By Fund |
| BAA_AS_PASSED_QUERY_ | BAA As Passed Adjustment Query - Detail |
| BAA_AS_PASSED_FUND | BAA As Passed By Fund |

- * = Wildcard for searches – example: b* search above, which returns all queries beginning with “b”. Additionally, as the search results are case sensitive, I can also add an* without entering the correct cases and still return the correct result, e.g., if I search for last name “smith” it will only return the last name “smith,” but if I enter “smith*” it will show me the last name “Smith” as well as “smith.”
- The first time a search page is opened in a session, the results grid defaults to “-NO ITEMS TO DISPLAY-”
- From that point on, every time when the user returns to the same search page during that session, the last search criteria and results are displayed

Favorites

When entering information into a hyperlinked field like “Fund” or “Organization” (see below), users can create “Favorites,” which allow them to create a “Favorites List,” which can then be used as shortcuts.

- To create a favorite:
 - Either click on the  icon and then click “Search,” or click on the hyperlinked field name

Advantage Budgeting > Budget Tasks > Formulate Budget Request > Select Budget Request

Select Budget Request

Layout Code: Request Code: Current Rank:

Layout Type: Name: Stage:

Organization:

Display

☐ Request Code

Favorites

| Code | Name |
|--|------|
| <input type="text" value="Search..."/> | |

- Search for the desired value and then click the  icon.
- To use a favorite:
 - After the favorite has been added, when you use a field like that above, click on the  icon and you'll see a list of favorited items. You can then click on a favorited item to add it to that specific field.

Advantage Budgeting > Budget Tasks > Formulate Budget Request > Select Budget Request

Select Budget Request

Layout Code: Request Code: Current Rank:

Layout Type: Name: Stage:

Organization:

☐ Request Code

Favorites

| Code | Name |
|-------|----------------------|
| 01110 | Finance & Management |

Refresh Cache Page

The **Refresh Cache** page will allow users to update their current Vantage session so that you can see newly created data without having to log out and then back in.

To Refresh Cache:

1. Navigate to either the Utilities main menu or click **Utilities** in the navigation bar
2. Click the **Refresh Cache Page** hyperlink
3. Click the Refresh Own Cache button
4. Use the bread-crum trail or the category toolbar to continue

2. The Budget Process

Vantage Budget Development

Vantage Hierarchy

Organizations

Organizations are organized in a hierarchy that dictates how they roll-up to the total budget. When entering organization information into a field, the user should be aware of at what level their information should be stored. The table below outlines how the consolidation codes relate to the budget roll-up.

| Organization Consolidation Level | Description |
|----------------------------------|------------------------|
| 1 | All State |
| 2 | Functional Area |
| 3 | Business Unit |
| 4 | Appropriation Dept. ID |

Funds

Funds are also organized in a hierarchy that dictates how they consolidate. When entering fund information into a field, the user should be aware of at what level their information should be stored. The table below outlines how the fund consolidation codes relate to the fund roll-up.

| Fund Consolidation Level | Description |
|--------------------------|---|
| 1 | All Funds |
| 2 | Fund Type (Special Fund, Enterprise Fund, Interdepartmental Transfer, General Fund, etc.) |
| 3 | Fund |

The hierarchy structure for organizations and funds are used when running reports in infoAdvantage and **the most common data entry and reporting structure is organization level 4, fund level 3.**

Entering the Budget

Departments need to create their budgets in the Vantage system. Some of the information will be imported before end users enter the system, such as the personnel data that is imported into Vantage from VTNR. Departments are responsible for verifying/updating this personnel data, entering operating expenses, grants, and any other necessary information. Departments are responsible for completing the following Vantage forms: Department Base Budget Request, Budget Narrative, Grants Out Inventory, Interdepartmental Receipts Form, Estimated Federal Receipts, and Decision Items.

In the following sections we will present information on how the budget process relates to the budget system, a step by step guide for each process, and Test Procedures to demonstrate the process.

3. Base Budget Request

A department's Base Budget is also referred to as a "current service level budget" and answers the question: "How much will it cost to do this year's business next year?"

Department users will be responsible for entering Base Budget Requests, described below. As described in the SBFS section (later in manual), while departments are responsible for ensuring the validity of employee and position information, they will not be responsible for calculating total Salaries and Benefits costs.

Completing a Base Budget Request

1. After logging into Vantage, navigate to **Budget Tasks** → **Formulate Budget Request**
2. In the **Code** field enter BASE*, Click **Search**
3. Click **BASE_BUDGET_REQUEST** hyperlink

Advantage Budgeting > Budget Tasks > Budget Layout Selection

Budget Layout Selection

Code: Name:

Layout Type:

Display Items

| Code |
|-------------------------------------|
| BASE_BUDGET_REQUEST |

4. To Open a New request:
 - a. Click **New**
5. To edit an existing request:
 - a. Click **Search**.
 - b. Click the check box to the left of the request you would like to open.
 - c. Click **Edit**. Please Note that you can only create one request per appropriation.

Layout Type: Name: Stage:

Organization:

Display Items

| <input type="checkbox"/> | Request Code | Name | Stage | Current Rank | Organization |
|-------------------------------------|--------------|---|-------|--------------|--------------|
| <input checked="" type="checkbox"/> | 5081 | Finance - Budget & Management Base Budget Request | 3 | 0 | 1110003000 |

Go to top of page

6. When Opening a New request, you will be asked to fill in the following information:

- a. Request Code: (leave blank, this field will auto-generate a number)
- b. Name: (Please enter: “(Your Appropriation Name) Base Budget Request”)
- c. Stage: (1)
- d. Ranking Type: (leave blank)
- e. Organization: (enter Appropriation DeptID or click the hyperlink to search for an Appropriation DeptID)
- f. Click **Save** in the upper right-hand corner of the page.

The screenshot shows the 'Create Budget Request' form in the AM ADVANTAGE Budgeting system. The form is titled 'Create Budget Request' and has a 'Save' button in the top right. It contains three main sections: 'Budget Request Information', 'Budget Request Information', and 'Dimensions'. The first section includes fields for 'Request Code', 'Name', 'Stage' (set to 1), 'Description', and 'Ranking Type'. The second section has a 'Return to Top' link. The third section has an 'Organization' field and a 'Return to Top' link. There are also 'Expand All' and 'Collapse All' links at the top left of the form area.

- g. After clicking **Save**, a message will indicate the 'Action was Successful' and the Budget Lines tab will become available.

7. The **Budget Lines** Tab is where all of the expenditure data exists and is where you will enter your budget requests. You can enter budget information in the following ways:

Hand enter information into the Request Amount column

- a. Add a new line item by clicking **New Item** on the left side of the page above the table. A new line will appear at the bottom of the table.
- b. Enter the following information in the new line code fields:
 - i. Fund: (enter the Fund object code manually if known or search for a fund using the *global search icon*)
 - ii. Budget Object: (enter the expenditure object code manually if known or search for an expense object using the *global search icon*)
 - iii. Request Amount: (Enter the amount you wish to budget for this Fund/Expense Object combination)
- c. Delete an item by clicking the check box to the left of the item you wish to delete, then

click **Delete Item**.

- d. Once you have entered the Requested Amounts for your Base Budget Request, click **Save**, shown in the top right corner of the screen.

Use the import/export feature, including the Excel Interface template

Many forms and layouts allow for the import and export of data directly into budget forms, including the Base Budget Request Form. Many users will find this feature extremely helpful due to its integration with Excel.

The screenshot shows the Vantage Budgeting interface. The top navigation bar includes 'Edit Budget Request', 'Budget Lines', and 'Document Attachments'. The 'Budget Lines' tab is active. Below the tabs, there are static fields for 'Layout Code', 'Layout Type', 'Request Code', 'Request Name', 'Stage', and 'Organization'. A 'Return to Top' link is present. Below these fields, there are buttons for 'Refresh', 'Zero Out', 'Display Sub Total', 'Select Model', 'New Item', 'Copy Item', 'Delete Item', 'Export', 'Import', 'Audit Trail', 'View Graph', 'Display 10 Items', and 'View as CSV'. The main area displays a table of budget lines with columns: Line, Fund, Budget Object, Short Name, FY2014 Actuals, FY2015 Original As Passed Budget, Request Amount, and Justification Line Text. The table contains 10 rows of data, with the 8th row highlighted in yellow. At the bottom, there is a 'Total' row and links for 'Expand All' and 'Collapse All'.

| Line | Fund | Budget Object | Short Name | FY2014 Actuals | FY2015 Original As Passed Budget | Request Amount | Justification Line Text |
|--------------|-------|---------------|------------|----------------|----------------------------------|----------------|-------------------------|
| 1 | 10000 | 500040 | E | 1,001 | 44,731 | | |
| 2 | 10000 | 504530 | E | 0 | 0 | | |
| 3 | 10000 | 505200 | E | 1,663 | 1,748 | 31,267 | |
| 4 | 10000 | 505500 | E | 400 | 300 | 300 | |
| 5 | 10000 | 505700 | E | 0 | 70 | | |
| 6 | 10000 | 506200 | E | 0 | 0 | 196 | |
| 7 | 10000 | 507350 | E | 340 | 1,408 | 1,020 | |
| 8 | 10000 | 507600 | E | 4,905 | 0 | 4,995 | |
| 9 | 10000 | 508000 | E | 0 | 0 | | |
| 10 | 10000 | 514010 | E | 0 | 0 | | |
| Total | | | | 250,875 | 280,204 | 276,771 | |

To locate the import/export links, once the **Base Budget Request** is selected, select the **Budget Lines** tab and the **import** and **export** links will appear right above the budget rows.

Expand All | Collapse All

Go to top of page

Do you want to open or save BudgetLineItems.csv from vantage.peoplesoft.state.vt.us?
 Open
Save
Cancel
×

Import

Select the **Import** link from the page. The file selection menu should then appear.

When performing an export/import ensure that you:

- Do not add/edit/delete any column headers
- Do not change the file name/type
- Do not upload files with special characters (-) or alpha characters (NA) the column headers

Downloads and uploads may take a few moments so please be patient. This is especially true if there are more than 500 budget entries on your form.

After watching the progress bar complete the operation, you will be returned to the Base Budget Request where the existing data will now have '~~strikethrough~~' characters for the old data (that was exported), and the new data (which was imported) will be displayed below it.

****Note that the Import process deletes all previous data and replaces it with the data in the uploaded .csv file. Take extreme caution to ensure that rows with prior year actuals are not deleted, even if those rows will not be used in the budget year.****

If you are satisfied with the newly imported data, click **Save**. Again, this operation may take a few moments, because the system has to delete all previous data and then insert new data. Once the application saves the information you will then be notified that the operation was successful and see your updated data.

8. Submit your initial Base Budget request (review the schedule of when submissions must be ready for review with the Budget Office in the Budget Instructions) by returning to the **Edit**

Budget Request tab.

- a. Select the **Stage** dropdown and select (2). Stage 2 indicates that your budget is ready for review by your assigned Budget Analyst.
- b. Click **Save**. There will be opportunities to edit your Base Budget Request during Stage 2, but this should be done in consultation with your Budget Analyst in preparation for the Governor's Recommended Budget.

Once your form is finalized your Budget Analyst will move it to Stage 3. Departments can no longer edit their budgets at this stage; only the Budget Office can make edits.

How To Avoid Locking Yourself Out

Vantage has a Lock-Out function that ensures the validity of data entered in the system. When any one of the following situations occurs within the base budget form, the end user will be locked out and must request to be unlocked by the Vantage Administrator Team.

- Multiple end users attempting to access the same base budget request
- There was more than 20 minutes of inactivity within the base budget request of a previous session (same user or different user)
- The Export/Import process fails

In order to avoid these situations:

- End users within the same business office should never attempt to access the same base budget request (i.e. same deptId) simultaneously.
- End users should save frequently and navigate out of the base budget request when they know they will have extended periods of inactivity.

End users should follow above instructions to execute a successful export/import process.

Test Procedures – Requesting a Base Budget

Budget Tasks > Formulate Budget Request

→ In Code Field Enter (BASE*)

→ Select **BASE_BUDGET_REQUEST**

Create a New Request

→ Select **New** Button above the table

Under **Budget Instance Details** Header, populate the following:

→ Request Code: (Leave Blank, sequential request code number will auto generate)

→ Name: ([Appropriation Name] Test Base Budget)

→ Stage: (1)

→ Ranking Type: (Leave Blank)

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Add Budget Line Expense Object

- Click **Budget Lines** Tab
- Click **New Item**
- In empty fund field, enter Fund (10000)
- In the empty budget object field, enter Object (550045)
- In Request Amount Field, enter (50,000)
- Click **Save**

Delete a Budget Expense Object

- Find a Budget Expense object to be deleted
- Click the check box to the left
- Click **Delete Item**
- Click **Save**

Export Base Budget Request Form

- In **Budget Lines** tab of the Base Budget Request Form, click **Export**
- BudgetLineItems.csv will download

Import Increased Request Amounts into Base Budget Request Form

- Return to Vantage
- In **Budget Lines** tab of the Base Budget Request Form, click the **Import** Hyperlink
- Click **Browse** and Select the BudgetLineItems.csv File
- Click **Upload**. Note: All old budget line items will be grayed and crossed out
- Click **Save**. Note: The old budget items will disappear, and only uploaded items will remain.
- Verify that results were uploaded correctly by referring to the spread sheet.

Submit Initial Budget Request

- Navigate to **Edit Budget Request** tab of the Base Budget Request Form
- Select Stage (2)
- Click **Save**

4. Supplemental Budget Materials

Budget Narrative

The “Big Budget Book” is a combination of position reports, expenditure reports, and narratives. A suitable narrative offers a brief description of a department or appropriation’s duties and budget plans for the upcoming year.

Please follow these guidelines below when entering budget narratives into Vantage for use in the “Big Budget Book”:

- There are three budget forms for Narratives which allow for narrative entry at the Agency, Department, and Appropriation level.
 - a. The **NARRATIVE** form should be used for narratives at the *appropriation level*
 - b. The **NARRATIVE_DEPARTMENT** form should be used for narratives at the *department level*
 - c. The **NARRATIVE_AGENCY** form should be used for narratives at the *agency level*
- ***Please look to the prior year’s Big Budget Book format to determine which narrative form(s) to complete for your department.***
- There are three fields in the Narrative form to enter information into (Mission Statement, Department Description, Key Budget Issues).
- If you are copying and pasting narrative information into the form, be sure to clean up the text as some characters and formats will not translate correctly into Vantage (i.e., apostrophes that look like Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿Ã¿ ; bullets that look like Ã¿).

The specific steps for entering a Narrative are listed below:

1. After logging into Vantage, navigate to **Budget Tasks** → **Formulate Budget Request**
2. In the **Code** field enter NARRATIVE*, Click **Search**
3. Select the appropriate NARRATIVE hyperlink

4. If updating an existing Narrative:
 - a. Enter your department's DeptID/Business Unit/Agency Code and click **Search**
 - b. Highlight the request you would like to open and click **Edit** to edit an existing request
5. If creating a new Narrative:
 - a. Click **New** to start a new request

Note: Similar to the base budget request, you can only create one request per appropriation
6. When Opening a New request, you will be asked to fill in the following information:
 - a. Request Code: (leave blank, this field will auto-generate a number)
 - b. Name: (Your Narrative Name)
 - c. Stage: (1)
 - d. Ranking Type: (leave blank)
 - e. Organization: (enter Appropriation DeptID, Business Unit, or Agency Code)
 - f. After entering information, Click **Save** in the upper right-hand corner of the page
 - g. After clicking **Save**, a message will indicate the 'Action was Successful' and the **Narrative** tab will become available
7. Click the **Narrative** tab to input the narrative information
 - a. Enter your content into the following Section fields:
 - i. Department/Program Description
 - ii. Goals/Objectives/Performance Measures
 - iii. Key Budget Issues
 - b. Click **Save**
8. To submit your Narrative form, select stage 2 of the **Edit Budget Request** tab. This is a signal to your Budget Analyst that the Narrative is ready for review.

Grants Out Inventory, Interdepartmental Transfer Receipts, Federal Receipts

The following supplemental forms are required for submitting a department's budget and all have the same formatting:

- GRANT_INVENTORY
- IDT_RECEIPTS
- EST_FED_RECEIPTS

These forms verify the Grants Rollup Budget Object, IDT Fund, and Federal Fund, respectively, as reported in the Base Budget Request. To help understand the intent with the forms, and using Grants as an example: if a department has added \$100K in Grant account codes, the department will use the GrantInventory form to list all of the individual grants that are being distributed and that total will match the Grants total in the Base Budget Request (\$100K). This allows a department to tie the actual grants

provided to the amount budgeted.

The specific steps for entering these forms are listed below:

1. After logging into Vantage, navigate to **Budget Tasks → Formulate Budget Request**
2. In the **Code** field enter GRANTS_INVENTORY or IDT_RECEIPTS or EST_FED_RECEIPTS, Click **Search**
3. If you are updating an existing form:
 - a. Enter your department's DeptID and click **Search**
 - b. Highlight the request you would like to open and click **Edit** to edit an **existing** request
4. If you are creating a **new** form:
 - a. Click **New** to start a new request

Note: Similar to the base budget request, you can only create one request per appropriation

- b. Provide the following information:
 - i. Request Code: (leave blank, this field will auto-generate a number)
 - ii. Name: (Your Appropriation Name)
 - iii. Stage: (1)
 - iv. Ranking Type: (leave blank)
 - v. Organization: (enter Appropriation DeptID or click the hyperlink to search for an Appropriation DeptID)
 - vi. After entering information, Click **Save** in the upper right hand corner of the page
 - vii. After clicking **Save**, a message will indicate the 'Action was Successful' and the **Budget Lines** tab will become available
5. To Add a New Budget Line Item
 - a. Click on the **Budget Lines** Tab
 - b. Click **New Item**
 - i. Enter, or Search, for the appropriate Fund
 - ii. Enter, or Search, for the appropriate Budget Expense Object, listed below for each type:
 1. Grants Out Inventory - GRANTS_OUT_EST
 2. Interdepartmental Transfer Receipts - 495000_EST
 3. Federal Receipts - 430000_EST
 - iii. Enter a justification in the **Justification Line Text** field where appropriate for *every* line item. You must use the proper naming convention, the standard justification for each is listed below:

1. Grants Out Inventory – The name of the program or entity receiving the grant
 2. Interdepartmental receipts – ‘Giving Appropriation’ DEPTID ; ‘Giving Appropriation’ Name
 3. Federal Receipts – CFDA # ; Name of the Federal Grant
6. To submit your form, select stage 2 of the **Edit Budget Request** tab. This is a signal to your Budget Analyst that the form is ready for review.

Test Procedures – Submitting Grants Out Inventory

Budget Tasks > Formulate Budget Request

- In Code Field Enter (GRANTS_INVENTORY)
- Select GRANTS_INVENTORY

Create a New Request

- Select **New** Button above the table

Under **Budget Instance Details** Header, populate the following:

- Request Code: (Leave Blank, sequential request code number will auto generate)
- Name: ([Appropriation Name] Grants Test)
- Stage: (1)
- Ranking Type: (Leave Blank)

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Add Grants Inventory Object

- Click the **Budget Lines** Tab
- Click **New Item**
- Fund: (20405)
- Budget Object: (GRANTS_OUT_EST)
- Estimate Amt: (10,000)
- Justification Line Text: (The name of the program or entity receiving the grant)
- Click **Save**

Test Procedures – Submitting Interdepartmental Transfer Receipts

Budget Tasks > Formulate Budget Request

- In Code Field Enter (IDT_RECEIPTS)
- Select IDT_RECEIPTS

Create a New Request

- Select **New** Button above the table

Under **Budget Instance Details** Header, populate the following:

- Request Code: (Leave Blank, sequential request code number will auto generate)
- Name: ([Appropriation Name] IDT Receipts Test)
- Stage: (1)
- Ranking Type: (Leave Blank)

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Add Interdepartmental Transfer Receipt Object

- Click the **Budget Lines** Tab
- Click **New Item**
- Fund: (21500)
- Budget Object: (495000_EST)
- Estimate Amount: (10,000)
- Justification Line Text: ('Giving Appropriation' DEPTID ; 'Giving Appropriation' Name)
- Click **Save**
- Click **Back**

TIP

*IDTs listed in this form must equal budgeted IDTs!
Your Budget Analyst will review that they match,
and that the giving appropriation DeptID and giving
appropriation name are listed!*

Test Procedures – Submitting Federal Receipts

Budget Tasks > Formulate Budget Request

- In Code Field Enter (EST_FED_RECEIPTS)
- Select EST_FED_RECEIPTS

Create a New Request

- Select **New** Button above the table

Under **Budget Instance Details** Header, populate the following:

- Request Code: (Leave Blank, sequential request code number will auto generate)
- Name: ([Appropriation Name] FED Receipts Test)
- Stage: (1)
- Ranking Type: (Leave Blank)

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Under **Dimensions** Header, perform the following steps:

- Click the **Organization** Hyperlink
- Enter [Appropriation DeptID] in the Code Field
- Click **Search**
- Select [Appropriation DeptID]
- Click **Save**

Add Federal Receipt Object

- **Click the Budget Lines Tab**
- **Click New Item**
- Enter Fund (22005)
- Enter Budget Object (430000_EST)
- Enter Revenue Estimate (10,000)
- Enter Justification Line Text (CFDA # ; Name of the Federal Grant)
- Click **Save**
- Click **Back**

TIP

Federal Funds listed in this form must equal budgeted FFs! Your Budget Analyst will review that they match, and that the CFDA number and the name of the federal grant are listed!

Decision Items

Decision items are the final piece of a department's budget submission. Please refer to this year's budget instructions for more specifications on the use of decision items.

Decision items represent increases or decreases to department budgets based on new initiatives. For example, a projected increase in the cost of fuel would be reflected as an increase in the base budget form, whereas a projected increase in cost from staffing a new laboratory would be reflected in the decision item form. Adding or eliminating a program would also be aspects of your budget that should be included using a decision item request.

Decision item requests should be submitted during the initial budget submission (see the yearly budget instructions) but can be submitted throughout the budget cycle as necessary. Your Budget Analyst will perform an initial review of all decision item requests to ensure their completeness. The Secretary of Administration and Commissioner of Finance will review decision item requests and determine whether or not they will be included in the Governor's recommended budget. Your budget analyst will advance approved decision item requests to stage 3 in Vantage. If the request is not approved, it will stay at stage 2. Once approved to stage 3, decision item requests are attached to a department's total budget. Note: Decision Items left at Stage 2 will not be added to the Base Budget but will remain on Vantage for department reporting.

TIP

infoAdvantage reports will not reflect decision items until they have been approved and moved to stage 3!

Unlike base budget requests or other supplemental forms, departments can and should create multiple decision item requests for each appropriation if they are proposing more than one policy or programmatic change.

The specific steps for entering this form are listed below:

1. After logging into Vantage, navigate to **Budget Tasks** → **Formulate Budget Request**
2. In the **Code** field enter DECISION_ITEM_REQ, Click **Search**
3. Enter your department's DeptID and click **Search**
 - a. Click **New** to start a new request
 - b. Highlight the request you would like to open and click **Edit** to edit an existing request.

4. When Opening a New request, you will be asked to fill in the following information:
 - a. Request Code: (leave blank, this field will auto-generate a number)
 - b. Name: (Your Appropriation Name and short text description of the Decision Item)
 - c. Stage: (1)
 - d. Description: (fill in a description of the decision item request – i.e. New Game Warden for Central VT)
 - e. Decision Item Type: (Personal Service [new position], Operating [for a discrete service, i.e. new copier], New Initiative [new projects or programs], Reductions [reductions required to meet budget targets])
 - f. Ranking Type: (leave blank)
 - g. Organization: (enter Appropriation DeptID or click the hyperlink to search for an Appropriation DeptID)
 - h. After entering information, Click **Save** in the upper right hand corner of the page
 - i. After clicking **Save**, a message will indicate the ‘Action was Successful’ and the **Budget Lines** tab and the **Position Lines** tab will become available
5. To Add a New Budget Line Item
 - a. Click on the **Budget Lines** Tab
 - b. Click **New Item**
 - i. Enter or Search for the appropriate Fund
 - ii. Enter or Search for the appropriate Budget Expense Object
 - iii. Enter the Requested Amount in the *On-Going Request* field. Items in this field will appear in the following year’s Base Budget Request.
 - iv. Enter a justification in the *Justification Line Text* field.
 - c. Click **Save**
6. To Add a New Position
 - a. Click on the **Position Lines** Tab
 - b. Click **New Item**
 - i. Enter or Search for the appropriate Fund
 - ii. Enter or Search for the appropriate Classification
 - iii. Enter the position’s start date
 - iv. The position end date should be the end of the fiscal year being budgeted for
 - v. Enter the FTE (1 or lower) and the count of positions
 - vi. If known, enter additional information such as Grade, Step, and Category. If this information is not entered, a default cost will populate from the Classification

selected. The Budget Office strongly suggests using the Vantage system to calculate employee costs. However, if the Vantage cost projection needs to be overridden after discussion with your Budget Analyst, enter in a percentage in the Salary Percentage field.

- c. Click **Save**

7. To submit your form, select stage 2 of the **Edit Budget Request** tab. This is a signal to your Budget Analyst that the form is ready for review.

5. Salary and Benefits Forecasting System

The Salary and Benefits Forecasting System (SBFS) is the module in Vantage that contains statewide employee salary and benefit information. Employee information is loaded into Vantage through an interface with the Vermont Human Resources system – VTNR. SBFS projects departmental personnel costs for the upcoming budget year – accurately depicting the cost of employee step increases, vacant positions, benefits costs, etc. and applies these costs directly to a department's budget request.

The Budget Office loads employee information after the first pay period of the current fiscal year. Therefore, the starting point for all position, employee, and assignment data is the first pay period of the current fiscal year.

*Note: Exempt positions will always need to be manually updated by departments to account for the annualization of the prior year's Pay Act (when applicable).

Salary Projections – Personnel Costs

After loading VTNR data after the first pay period of the current fiscal year, the Vantage Administrator Team will then regularly execute **Salary Projections** – a series of automated calculations that will derive the budget need for departments based on the current set of employee information and the estimated costs of the upcoming budget year (health insurance premiums, employee retirement contribution rates, future year salary tables, etc.). Note: Projections are calculated from the current fiscal year's salary tables and will not include upcoming salary increases (i.e. will not include Pay Act amounts). If updated benefits tables become available in October or November due to negotiations with VSEA, the Salary Projection will be updated to reflect these negotiations.

The salary projections will then automatically post the calculations to the budget request time period. The costs will append to department budget requests, without the need for department users to enter Salary or Benefit information. It is prudent for department users to review their employee information for accuracy, the steps by which to review are described below. Note: Benefits information will be uploaded during the Salary Projection executed by the Vantage Administrator Team in August. If an employee's benefits have not changed since August, department users do not need to review the file or make changes!

Nightly projections automatically run from 2am – 6am. Additionally, the Vantage Admin Team runs manual projections daily from noon – 1pm. Vantage is locked while projections are running.

TIP

Salary and benefit costs for existing positions and employees are automatically calculated by Vantage! In order to ensure Vantage calculates these costs correctly, departments must verify the accuracy of the personnel information in Vantage!

Remember: New positions will be handled through the Decision Items form. Costs for new positions are not within the costs produced by SBFS!

The Personnel Review Process

As it is important to properly define the various entities in SBFS, please familiarize yourself with the definitions below:

Employee: A human resource that can fill a position

Position: A job title that is filled by an employee

Assignment: Relates an employee to a position

Vantage contains many points of entry for salary and benefit information to ensure accurate projections. Vantage looks to the following records, in the following order, when executing projections:

1. Employee; if blank then
2. Position; if blank then
3. Category; if blank then
4. Classification (which contains a default Category)

All instructions below teach the end user to enter information on the employee record and (then) position record. However, if information is left blank salary and benefits will project using information on the category record. End users do not have access to view or edit category records, and therefore it is highly recommended that end users follow instructions to utilize employee and position records.

TIP

Take 2-3 second breaks between clicking buttons in the SBFS module. Save often! There is precedent for Vantage deleting/corrupting position records based on fast movement between pages.

Editing Existing Positions/Creating New Positions

1. After logging into Vantage, navigate to SBFS → Positions, Employees and Assignments → Position Maintenance
 - a. If you are editing an existing position:
 - i. Search for positions using the Global Search function if the exact number is unknown (i.e. 34*)
 - ii. Click on a position number and Click Edit
 - b. If you are creating a new position (i.e. one that was created between the first pay period of the current fiscal year and present day)
 - i. Click New.
2. Provide new or updated core information in the Edit Position tab (Core Information fields able to be changed below):
 - a. Position Number
 - b. Count of positions – Note: shared positions have a count of 2
 - c. Position Classification Code and Name
 - d. Approval to Fill checked
 - e. FTE amount
 - f. Program Code
 - g. Primary Fund Source
 - h. Organization DeptID
 - i. If the position is vacant and exempt, enter the Current salary box.

The screenshot shows the 'Position Information (1)' form. Red stars are placed over the following fields: Position Number, Count, Code, Position Classification, Position Category, Position Grade, Position Step, Salary Table, Report Classification, Approval To Fill, FTE Amount, Salary Percentage, Benefit Percentage, Program, Fund, and Organization. A speech bubble points to the 'Unemployment Factor' field with the text 'if vacant exempt'. The form is divided into sections: Position Information, Position Attributes, Position Percentages, and Home Dimension Set.

3. Verify information in the Benefit tab is correct:
 - a. If position is vacant
 - i. There should be benefit information
 - b. If position is filled:
 - i. There will be benefits information on the employee record, not the position.

TIP

Benefits:

- **Vacant Position → in Position Maintenance**
- **Filled Position → in Employee Maintenance**

4. Review the position to determine if there is a fund split:
 - a. If there is no fund split for the position, click **Save**
 - b. If there is a fund split for the position:
 - i. Click the Position Allocations tab, which will carry all information on additional fund splits to the primary fund source listed on the Edit Position tab.
 - ii. **NOTE:** The integration with VTHR after the first pay period of the current fiscal year will only contain the primary fund source. **All additional fund splits will be entered manually.**
 - iii. **Click New Item**

- iv. Enter the Allocation Percentage and the Fund

Note: Do not enter a percentage amount for the primary fund. The Primary Fund Source percentage will be automatically lowered by the sum of all allocation percentages added.

TIP

If position fund splits are saved in Vantage but you do not see them populated in infoAdvantage reports, confirm that the program, fund, and organization dimension fields are not populated on the employee record.

Editing Existing Employees/Creating New Employees

1. After logging into Vantage, navigate to SBFS → Positions, Employees and Assignments → Employee Maintenance
 - a. If you are editing an existing employee:
 - i. Search for employees
 - ii. Click on an employee number and Click Edit
 - b. If you are creating a new employee:
 - i. Click New
2. Provide new or updated core information in the Edit Employee tab(Core Information fields able to

be changed are below):

- a. Employee Number
- b. Active checkbox
- c. First Name, Last Name
- d. Description
- e. Employee Classification Code and Name
- f. Employee Step, Employee Grade, and Employee Category
- g. Note: Employee's step should be their step as of present day, not their step at a future point during the fiscal year. The forecasting system will account for changes in salary and benefits due to future step dates.
- h. Salary Table
- i. FTE Amount
- j. Promotion Date
- k. Program Code
- l. Primary Fund Source
- m. Organization DeptID

The screenshot shows the 'Edit Employee' form with the following sections and fields:

- Employee Information:** Employee Number, First Name, Middle Initial, Last Name, Description, Employee Classification (Code and Name), Employee Step, Employee Grade, Employee Category. Red stars are placed over Employee Number, First Name, Middle Initial, Last Name, Description, Employee Classification (Code and Name), Employee Step, Employee Grade, and Employee Category.
- Employee Attributes:** Salary Table, Employee Location Code, Age of Entry, Current Salary Amount, FTE Amount. Red stars are placed over Salary Table, Employee Location Code, and FTE Amount.
- Employee Dates:** Hire Date, Longevity Date, Promotion Date, Birth Date. Red stars are placed over Promotion Date and Birth Date.
- Home Dimension Set:** Accounting Template, Program, Fund, Organization. Red stars are placed over Accounting Template and Organization.

3. The Benefits tab contains all of the employee's benefits, which usually is some combination of Health, Dental, Life, LTD, Retirement, and EAP. **Note: All employees must have EAP selected!**

Existing employees will have EAP automatically loaded during the Salary Projection executed by the Vantage Administrator Team in August, however departments must attach EAP to new employees! If EAP is not attached, the employee will not show up in Vantage queries or infoAdvantage reports.

- a. To add a benefit:
 - i. Click Add Item
 - ii. Search for the benefit's name
 - iii. Select the Classified or Exempt versions of the benefit depending on the type of employee.
- b. Benefit code lists are available by request of the Vantage Administrator Team. The Vantage Administrator Team will also distribute new benefit lists if any updates are made throughout the budget development season.

4. Editing Existing Assignments/Creating New Assignments

- a. After logging into Vantage, navigate to SBFS → Positions, Employees and Assignments → Assignment Maintenance
- b. If you are editing an existing assignment:
 - i. Search by position number or employee number
 - ii. Click on an assignment number to view and/or edit the assignment information
- c. The Vantage Admin Team recommends that employee records should not be deleted, even if it is known that an employee is leaving state government. The employee record will not impact projections without being assigned to a position and the employee record could save another department time if that employee takes employment in another department.
- d. If you are creating a new assignment (i.e. existing employee joined the department between the first pay period of the current fiscal year and present day):
 - i. Click New to add new assignment information. This includes:
 - ii. Assignment Number: Employee # + Position # pasted one after the other, e.g., if the employee ID is #01234 and the position Id is \$567891, the Assignment Number would be #01234567891
 - iii. Name (match to Employee record)
 - iv. Position Description (match to Position record)
 - v. Employee Percentage: 100% is full-time, anything less represents a partial assignment

- e. Click Save

TIP

- *New Positions are created in Position Maintenance.*
- *New Employees are created in Employee Maintenance.*
- *New Assignments are created in Assignment Maintenance.*
- *New Employees to be added to Existing Positions would require an entry in Employee Maintenance, a deletion of the previous assignment in Assignment Maintenance, and a new assignment in Assignment Maintenance. The Position Classification must match the Employee Classification!*

5. Reviewing Positions, Employees, and Assignments

- a. If at any time you would like to review the total cost of Salaries and Benefits for your department, you may view the information using the Vantage BASE_BUDGET_PROCESS query, described in further detail in the Query section.
- b. Nightly system processing will update and post the revised results to department budget requests. The Budget Office will also run projections on demand at noon daily. Note: Any changes made to personnel data will appear in infoAdvantage reports after the noon projection or the following day.
- c. It is strongly recommended that departments review their positions, employees, and assignments for budget submissions by using either the **Position Summary** report from infoAdvantage or the **Position Summary With Fund Splits** report from infoAdvantage. These two reports will be described in further detail in the infoAdvantage section.

6. Budget Adjustment Act Request

Department Users must submit budget adjustments, both increases and reductions, through Vantage. The Budget Office will review BAA requests for their potential inclusion in the Budget Adjustment Act. All Budget Adjustment Act changes to the Current Year budget will be tracked in Vantage, including changes made in the legislature independent of the Governor's BAA. Department Users are only responsible for submitting the initial BAA requests where necessary.

Completing a BAA Request

1. After logging into Vantage, navigate to **Budget Tasks → Formulate Budget Request**
2. In the **Code** field enter CY_BAA_REQUEST, and click **Search**
3. Enter your department's DeptID and click **Search**
 - a. If editing an existing request:
 - i. Highlight the request you would like to open and click **Edit**.
 - b. If creating a new request:

- i. Click **New**
 - ii. When Opening a New request, you will be asked to fill in the following information (a * next to a code field indicates that it is a required field)
 1. Request Code: (leave blank, this field will auto-generate a number)
 2. Name: (“(Your Appropriation Name) BAA Request”)
 3. Stage: (1)
 4. Ranking Type: (leave blank)
 5. Organization: (enter Appropriation DeptID or click the hyperlink to search for an Appropriation DeptID)
 6. After entering information, Click **Save** in the upper right hand corner of the page
 - c. After clicking Save, a message will indicate the ‘Action was Successful’ and the Budget Lines tab, the Position Lines tab, and the BAA Change Explanation tab will become available.
4. Click on the **BAA Change Explanation** tab
 - a. In the first box under *Section Content*, explain the reason for this particular Budget Adjustment Request. Note: the form will not Save again properly without entering this explanation.
5. The **Budget Lines Tab** is where all of the expenditure data exists, and is where you will enter all BAA Requests, except for new positions. New positions will be added through the **New Position** tab, described below.

- a. Budget Lines can be added manually or through the import/export feature, described above in the base budget request section.
6. To **Add a New Position**
 - a. Click on the **Position Lines** Tab
 - b. Click **New Item**
 - i. Enter or Search for the appropriate Fund
 - ii. Enter or Search for the appropriate Classification
 - iii. Enter the position’s start date
 - iv. The position end date should be the end of the fiscal year being budgeted for
 - v. Enter the FTE (1 or lower) and the count of positions
 - vi. If known, enter additional information such as Grade, Step, Category,

Employment Type, and Position Status. If this information is not entered, a default cost will populate from the Classification selected. The Budget Office strongly suggests using the Vantage system to calculate employee costs, however if the Vantage cost projection needs to be overridden after discussion with your Budget Analyst, enter in a new number in the Salary field.

c. Click **Save**

7. To submit your form, select stage 2 of the **Edit Budget Request** tab.

Test Procedures – Submitting Budget Adjustment Act Requests

Budget Tasks > Formulate Budget Request

→ In Code Field Enter (CY_BAA_REQUEST)

→ Select CY_BAA_REQUEST

Create a New Request

→ Select **New** Button above the table

Under **Budget Instance Details** Header, populate the following:

→ Request Code: (Leave Blank, sequential request code number will auto generate)

→ Name: ([Appropriation Name] BAA Test)

→ Stage: (1)

→ Ranking Type: (Leave Blank)

Under **Dimensions** Header, perform the following steps:

→ Click the **Organization** Hyperlink

→ Enter [Appropriation DeptID] in the Code Field

→ Click **Search**

→ Select [Appropriation DeptID]

→ Click **Save**

Under **Dimensions** Header, perform the following steps:

→ Click the **Organization** Hyperlink

→ Enter [Appropriation DeptID] in the Code Field

→ Click **Search**

→ Select [Appropriation DeptID]

→ Click **Save**

Add Positive BAA Request Expense Object

→ Click the **Budget Lines** Tab

→ Click **New Item**

→ Enter Fund (10000)

→ Enter Budget Object (507563 - Advertising/Marketing - Other)

→ Enter (5,000) in Requested Adjustment

→ Justification Line Test (Leave Blank)

→ Click **Save**

Enter BAA Change Explanation

→ Click the **BAA Change Explanation** Tab

→ In the **Section Content** field, next to Please explain Request, Enter (Key Budget Issues for Current Year BAA)

→ Click **Save**

Validate Added Budget Expense Object Remains

→ Click **Budget Lines** Tab

→ Verify BAA Request Expense Object 507563 is still there with a request amount of \$5,000

Add Negative BAA Request Expense Object

→ On the **Budget Lines** Tab

→ Click **New Item**

→ Enter Fund (10000)

→ Enter Budget Object (501500 - Health Ins Classified) <if your appropriation does not have this object, you can use 501510, 501599, or any other available object code>

→ Enter (-2000) in Requested Amount

→ Click **Save**

7. Queries

Queries display information from Vantage in a table format similar to a spreadsheet. However, since data in Vantage resides in a relational database rather than a spreadsheet, queries can be used to display information at different levels of detail and from more than one budget request. Information contained in queries can be exported to Microsoft Excel for further analysis.

The Budget Office recommends the use of queries to verify all Base Budget Requests, Supplemental Forms, and Budget Act Adjustment Requests.

To access queries:

1. Navigate to **Budget Tasks → Execute a Query.**
2. Click on the **Public** checkbox and then click **Search.**

*The list of available queries can be found in Appendix A.

Executing Queries

1. To verify your Base Budget Request, Decision Items, and SBFS Entry using a Query
 - a. Click on **BASE_BUDGET_PROCESS**, click **Select**
 - b. Insert your Department's DeptID in the **Organization Code** box
 - c. Click **Query**

You will be able to verify your total budget request using this query (results shown below) during all the stages of the Budget Process and the Legislative Process. You are able to drill into each amount to verify its composition, as well as export the query results to Excel for additional analysis.

Decision Items are listed in a separate column from the Base Operating Budget for ease of identification. The Base Operating Budget includes the Base Budget Request.

TIP

***Decision Items can be reviewed in the
BASE_BUDGET_PROCESS query regardless of stage!***

Action was successful.

Query

Definition Summary

Code: BASE_BUDGET_PROCESS Name: Base Budget Process - Detail Level

You will be able to verify your total budget request for the Budget Adjustment Act using this query (results shown below) during all the stages of the BAA Budget Process and the BAA Legislative Process. You are able to drill into each amount to verify its composition, as well as export the query results to Excel for additional analysis.

Creating Queries

Department users have access to create their own queries. The Budget Office recommends copying a query that has a similar functionality rather than starting from scratch. Copying a query that has a similar functionality will preserve accurate time periods.

Monetary information for each event throughout the budget cycle that is stored in its own time period. For example, the final As Passed monetary amounts for the current year's budget is identified by Vantage as CY_FINAL_AS_PASSED. Some common time periods are listed below for reference. All time periods are listed in Appendix D.

| | |
|---|--------------------|
| As Passed, Budget Year | BY_FINAL_AS_PASSED |
| Governor's Recommend, Budget Year | BY_ADMIN_TOT_REC |
| As Passed, Current Year | CY-AS_PASSED |
| As Passed, Current Year (including BAA) | CY_FINAL_AS_PASSED |
| Governor's BAA Recommend, Current Year | CY_ADMIN_TOT_REC |

To copy a query:

1. navigate to **Budget Tasks → Query Definition Maintenance**.
2. Select the query that is most similar to the query you would like to create.
3. Click **Edit**.
4. Prior to changing any information listed on the **Edit Query Definition** tab, click **Copy**.

5. After clicking Copy, the Code field will become editable. Rename the Code, Query Name, and Query Description. Note: The Full Name field will automatically update after you save your new query.
6. Click Save.

7. The dimensions define how the query will pull information.
 - a. Queries can have up to three row groups.
 - i. In the BAA_ADJ_QUERY query, the first row group dimension is budget object and row elements are individual accounts (budget objects) and total expenses.
 - ii. There is not a second or third row group dimension in this query.
 - b. Queries can have one column group.
 - i. In the BAA_ADJ_QUERY query, the column group is time period and column elements include various time periods throughout the BAA budget cycle.
 - c. Selection dimensions allow for the option or requirement of entry of specific dimensions

on the query execution page.

- i. In the BAA_ADJ_QUERY query, the organization dimension and the fund dimension are listed under the selection dimensions, as options. This is why the query execution allows the end user to identify a specific DeptID or fund.

The list of available time periods can be found in Appendix D. Please contact the Vantage Administrator Team at FIN.Vantage@vermont.gov if you need assistance with creating a query that is not currently available.

8. Running infoAdvantage Reports

End users have access to standard reports for another check to the base budget submission, supplemental budget material submission, and SBFS entry. The list of available and recommended reports can be found in Appendix B. Additional reports may become available throughout the budget development season by request. If additional reports become available, they will be added to a “New Reports by Request” folder within the Budget Preparation folder.

There are two folders in infoAdvantage available to users, the Budget Preparation folder and the Legislative Changes & As Passed Budget folder.

Reports in the Budget Preparation folder, in order:

1. *Gov Rec Budget Detail Report and *Gov Rec Budget Rollup Report
 - a. The *Gov Rec Budget Detail Report and *Gov Rec Budget Rollup Report function as a

final check to the department's base budget request. As denoted by the asterisk in the report name, these reports will be reported to the legislature in the department's budget submission.

- i. The *Gov Rec Budget Detail Report has user prompts for organization code and level. Rows are budget objects such as 500000 Classified Employees, 55700 Furnitures & Fixtures, etc.

5. Gov Rec Major Object Report

- a. The Gov Rec Major Object Report functions as a final check to the department's base budget request, specifically to validate major object categories of their budget. Appropriations are listed in the budget bill by major object and therefore this report is necessary for the budget office to ensure the budget bill reflects the department's intended budget. This report is not reported to the legislature.
 - i. The Gov Rec Major Object Report has user prompts for organization code and level. Rows are major objects (personal services, operating, and grants).

Reports in the Legislative Changes & As Passed Budget folder, in order:

All six reports listed below follow the format of the corresponding Gov Rec report, described above. All reports have prompts for fund consolidation level, organization code, and organization consolidation level. These reports should be run prior to the start of the new fiscal year. The Vantage Admin Team will send a reminder email to pull these reports down from infoAdvantage.

1. As Passed Budget Detail Report
2. As Passed Budget Major Object Report
3. As Passed Budget Rollup Report
4. Legislative Changes Budget Detail Report
5. Legislative Changes Budget Major Object Report

6. Legislative Changes Budget Rollup Report

9. Advanced Topics

This section contains topics which the Vantage Admin Team has identified over the past few years as being potentially helpful for a user seeking to understand and get a higher level of analysis from the budget system.

Pulling Flat Files from infoAdvantage for Prior Year Actuals, Calendar Year Appropriations, and BAA and Budget Gov Rec Amounts

1. Log in to infoAdvantage
2. Click on **Document List**
3. Click the plus sign next to **Public Folders**
4. Click the plus sign next to **Vermont Reports**
5. Click on the Budget Preparation Folder
6. Double click on the **Budget Detail Report** (or any other budget report in that folder)
7. Enter values for the organization code(s) and the organization level
8. Click **Run**
9. After the report has populated with the new data, click the down arrow next to Document in the upper left-hand corner
10. Navigate to **Save to my computer as > CSV**
11. Click **Open** when prompted at the bottom of your screen

You will now be looking at a Budget Detail Report.csv which is the system's attempt at taking the formatted Budget Detail Report and turning it into a flat file. The data is usable, but it needs to be formatted first.

12. Highlight all data and apply a filter to the top row of the spreadsheet
13. In the column with header **Time Period Code**, filter as follows:
 - a. PY1_ACT – Represents prior year actual amounts
 - b. CY_AS_PASSED – Represents calendar year as passed amounts
 - c. CY_ADMIN_TOT_REC – Represents calendar year BAA Gov Rec amounts
 - d. BY_ADMIN_TOT_REC – Represents budget year Gov Rec amounts

This methodology can be applied to any infoAdvantage report to extract information on columns of interest.

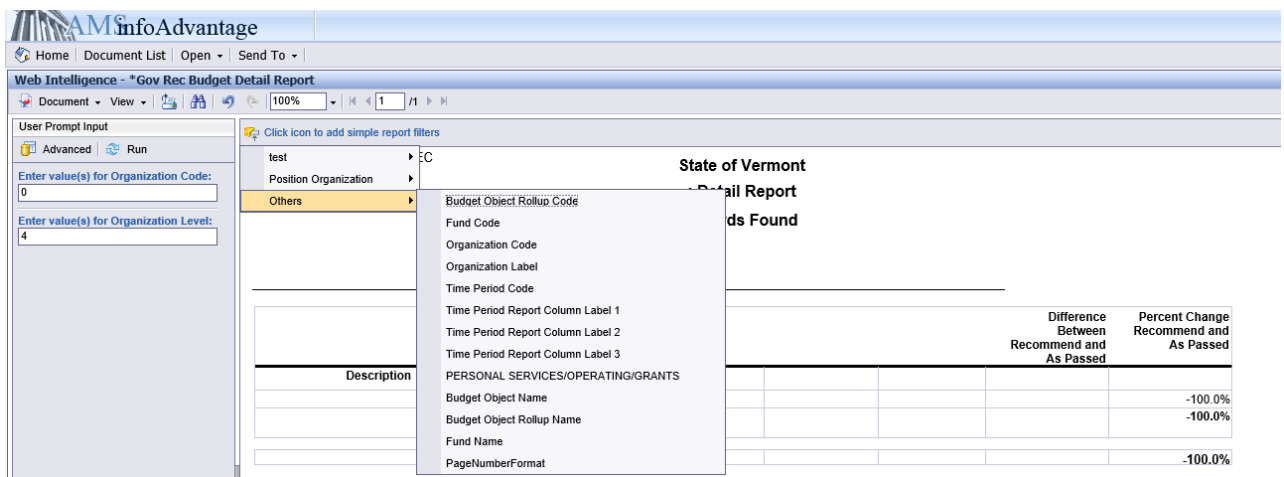

Filtering infoAdvantage Reports

If you wish to drill down into the information in reports without pulling the flat file version, you can easily add filters to any of the infoAdvantage reports. Filters exist for all of the objects within the report, however the most useful filters are fund code/fund name and budget object name.

1. Log in to infoAdvantage
2. Click on **Document List**
3. Click the plus sign next to **Public Folders**
4. Click the plus sign next to **Vermont Reports**
5. Enter values for the organization code(s) and the organization level
6. Click **Run**
7. After the report has populated with the new data, click the filter toolbar button at the top right of the report (pictured below).

8. Click the icon to add simple report filters that pops up (pictured below).

9. Filter on any of the available objects in the report. This will return the same data as previously run, but filtered on the selected filter. For example, if I selected fund code, the fund code filter would populate with a default of "All values" but I could select a fund code from the list to filter on (pictured below).

Verifying Prior Year Actuals Amounts

When verifying prior year actual amounts in Vantage against Vision, here are some key points to keep in mind:

1. Vision uses a different fund rollup consolidation than the Vantage budget consolidation. Therefore, verifying prior year actuals is most easily done at the fund code level rather than the fund rollup level. However, the Vantage Admin Team does have a fund consolidation matching Vision's entitled "CAFR_CONSOL" if you wish to verify at the fund rollup level. You can create new queries using this consolidation or the Vantage Admin Team can copy and modify an existing report with this consolidation for you, discussed below.
2. Prior year actuals in Vantage represent cash accounting as of the date of closeout in mid-July. Any expenses applied to the previous year under accrual accounting in Vision will never be seen in Vantage.
3. If you have any questions while verifying prior year actuals, please reach out to the Vantage Admin Team.

With the three points above in mind, department users should be able to pull a flat file of their prior year actuals from infoAdvantage, discussed previously, and compare to Vision prior year actuals.

Utilizing the VAT – infoAdvantage Report Modifications

The Vantage Admin Team has spent the past few years getting familiarized with the back-ends of the infoAdvantage reports and now is ready to accept light modifications to existing reports from end users. Examples of such requests could be:

1. Changing the organization consolidation to "BUDGET_BOOK_CONSOL" so that one-times are excluded when running reports at a business level (org level 3). This would be especially helpful for legislative reports.
2. Changing the fund consolidation to "CAFR_CONSOL" so that fund rollups in Vantage match fund rollups in Vision. This would only be useful for verifying prior year actuals.
3. Adding further prior year actuals, such as prior year 2, prior year 3, etc. This report would be useful in excel and flat file format but not as a pdf for reporting due to column space restrictions.
4. Formatting changes

Requests will be reviewed on a case by case basis and balanced against existing workload priorities.

Verifying State Share of Benefits using Vision

Users of Vantage acknowledge that data accessed through Vantage may include personal, sensitive and/or confidential information that may only be used for legitimate business purposes and may not be disseminated or shared with any person beyond that legitimate business purpose. Improper use, sharing or dissemination of such data may subject a State employee to discipline for violation of applicable State of Vermont Personnel Policies.

The paragraph above was developed in partnership with DHR and is present on the New User Request Form. Users frequently ask the Vantage Admin Team whether we can assist them in identifying the benefit selection of a particular employee. We cannot assist in this activity due to our agreement with DHR to not share personal, sensitive and/or confidential information. Similarly, DHR will not be able to assist in this activity.

If a department user has the appropriate access, they can query Vision and identify the state share of benefits paid by employee. This state share figure can then be matched against the "Vantage Insurances Cheat Sheet" spreadsheet which is sent out to all users when Vantage first opens. Department users should be able to determine the appropriate benefit to budget for an employee through this comparison.

Planning Ahead – How to Change the Imported Primary Fund on a Position Record

Department users can always edit a position record to change the fund listed in the Home Dimension Set after Vantage is open. However, some departments have asked for information on how that fund is populated and how they might change it for future imports.

The fund listed in the Home Dimension Set on a position record is populated through the default fund mapping for a deptId, set up in Vision. The Financial Operations Team can assist with adding or changing default fund mappings.

Appendix A – Queries

| CODE | NAME | PURPOSE | ACTIVE? | PUBLIC? |
|----------------------|--|--|---------|---------|
| BAA_ADJ_LEG_FUND | BAA Adjustment Query - By Fund | Runs BAA totals for selected Org by fund | Yes | Yes |
| BAA_ADJ_QUERY | BAA Adjustment Query - Account Level Detail | Runs BAA totals for selected Org with account level detail | Yes | Yes |
| BASE_BUDGET_PLUS | Base Budget Process - Detail Level Plus PY Budgets | Runs Budget totals for selected Org with account level detail plus 5 years prior budgets | Yes | Yes |
| BASE_BUDGET_PROCESS | Base Budget Process - Detail Level | Runs Budget totals for selected Org with account level detail | Yes | Yes |
| BASEBUD_PROCESS_FUND | Base Budget Process - By Fund | Runs Budget totals for selected Org and Account by fund | Yes | Yes |
| EST_RECEIPTS | Estimated Receipts | Runs Supplemental form submissions by deptId for CY As Passed and BY | Yes | Yes |
| EXPENSE_BY_FUND | Expense Accounts and Funds | Runs Accounts by fund rollup for selected Org and Time Period | Yes | Yes |
| LEGIS_ADJ_QUERY | Legislative Budget Adjustment Query - Account Level Detail | Runs Budget Leg Changes totals for selected Org with account level detail | Yes | Yes |
| POS | POS by Dept ID | Runs Positions by DeptID for BY, CY, and PY | Yes | Yes |
| TOT_REV_QUERY | Special Fund Revenues | Runs Special Fund totals for Revenue accounts in Gov Rec | Yes | Yes |
